Plan2Fund is a watershed planning tool that helps organizations determine their funding needs to meet the goals, objectives, and tasks of their watershed program plan.

The **Directory of Watershed Resources** is an on-line, searchable database that allows users to search for federal, state, local, and private watershed funding sources available for the development and implementation of watershed projects. <http://efc.boisestate.edu>

The **Catalog of Federal Funding for Watershed Protection** is an easy-to-use searchable Web site that provides information on 100 federal programs offering financial assistance. <http://www.epa.gov/watershedfunding>

To register contact Karen Fligger at fligger.karen@epa.gov or (202) 566-1284 . Space is limited. Priority will be given to those who register before July 22nd.
